

## OCEANTIC NETWORK

# Why Join?

Get Connected. Get with the Network.

### WHY JOIN THE OCEANTIC NETWORK?

As the **leading collaborative voice** for the offshore wind and ocean renewables industries, the Oceanctic Network (formerly the Business Network for Offshore Wind) brings people together through all stages of the supply chain, making connections that help companies find their own story of success in the industry.

We partner with private industry and government agencies to build a resilient supply chain that will create and sustain jobs, benefit local economies, and ensure cost-effective clean energy. We advance our mission by connecting developers, policymakers, academics, community and workforce leaders through events, education, digital tools, and policy initiatives to grow the vital offshore wind and ocean renewables sectors.

To find your place in this industry, your business needs to be present, relevant, and networking with the right stakeholders – we can make that happen. As the largest nonprofit organization dedicated to growing the U.S. offshore wind and its supply chain as well compatible ocean renewables sectors, 100 percent of your membership dollars go right back into supporting the growth of these renewable energy industries.

### WHY SHOULD I BECOME A NETWORK MEMBER?

- **New in 2024!** Monthly member-only webinars that highlight current industry research and trends
- Access exclusive member-only benefits, including OSW Market Dashboard, the new Leading Edge webinar series, member-only networking events, industry introductions, and much more
- Establish yourself as an industry leader. Showcase your knowledge and expertise while growing your business.
- Join 550+ other members for unparalleled networking and partnership opportunities
- Receive assistance navigating the unique challenges of offshore wind
- Leverage your ability to quickly act on new and upcoming offshore wind opportunities
- Customized data searches for your company in Supply Chain Connect. Access over 4,000 supply chain partners.
- Receive member-only invitations, including speaking opportunities at Network events, early-bird event registration, and more
- Receive regulatory updates that our Policy team breaks down to ensure members understand how changing state and federal guidelines will impact their business
- Get connected! Over one-third of Network members have an offshore wind-related contract.
