IPF24 INTERNATIONAL PARTNERING FORUM

APRIL 22 - 25 | **NEW ORLEANS**

Morial Convention Center (Halls B-D)

HOST SPONSORS

FUGRO **RWE**

The International Partnering Forum (IPF) is the premier offshore wind conference in the Americas. Hosted by the Oceanic Network (formerly the Business Network for Offshore Wind), IPF connects global leaders and businesses in the supply chain, offers unparalleled networking opportunities, and delivers the most timely and relevant updates on the industry, from technology and policy to safety and siting.

Located in the heart of America's offshore energy industry, New Orleans will host 2024 IPF just as the Gulf of Mexico begins developing its offshore wind market. Gulf companies are building America's next energy industry and moving to integrate new technologies like green hydrogen into offshore wind. Embracing its offshore energy past and embracing the future of offshore wind, New Orleans and the state of Louisiana are emerging as a center of experience, expertise, innovation, and heart of this new industry.

As offshore wind expands rapidly, attending IPF will secure your place as a leader in the industry.
